THE PACIFIC NEWS.

Union of Californians for the sake of California.

VOL. 1. SAN FRANCISCO, DECEMBER 20, 1849. NO. 51.

SAN FRANCISCO.

Thursday, Dec. 20, 1849.

The State Legislature.

We have received no formal report of the doings of this body since our last publication. We learn, however, that, as we anticipated, a quorum of both Houses, notwithstanding the state of the travelling, was present on Monday last, and sessions of both the Senate and House were held. A temporary organization was adopted. There are two or three instances of contested seats, in the Sonoma and Sacramento Districts. Should the provision of the Constitution, requiring the Legislature to proceed to the election of U. S. Senators, within four days from the first day of its session, be deemed merely directory and not mandatory, the contest for seats may delay such election for a few days. There are, we believe, some precedents favoring this view of the matter, but the importance of electing the Senators in season for them to proceed to Washington in the next steamer, is manifest, and will doubtless be felt by the Legislature.

The inauguration of Governor Burnett probably took place on Monday or Tuesday.

The Union of the Democracy of New York.

As the dissension of the Democratic Party of the Union, in relation to the question of "Free Soil," may yet have some bearing upon the discussions in Congress, in relation to the admission of California as a State, the terms of conciliation upon this subject, adopted by the two sections of the Party in New York, are of considerable interest. The sum and substance of the matter seems to be that the Northern Democrats, as a party, are to affirm the truth of the Free Soil doctrine, and then to leave individual democrats practically at liberty to think and speak as they please of it, without prejudice to their standing as party men. So, at least, we understand the Resolutions adopted at Syracuse, as the basis of united action, between the two sections. In the existing state of feeling at the North, on the subject of Slavery in the Territories, perhaps no more judicious "Platform" could have been adopted.

The Resolutions referred to, are as follows:

The Committee on Resolutions, after enlarged discussion, have arrived at a satisfactory and unanimous conclusion. [Great applause] There have been differences of opinion, but those differences of opinion, sir, as we have interchanged views, have melted away, and produced on our own judgment, and we hope to the satisfaction and acceptance of the Convention, a series of resolutions expressive of the common views of the democratic party. I therefore beg leave to submit the following resolutions, unanimously reported by the committee.

Resolved, That Congress has the constitutional power over slavery in the District of Columbia, and has no power over the subject in the States. That it possesses, in the opinion of the Convention, full power over the subject in the territories of the U. States, and should exert that power on all occasions of attempts to introduce it there; but as the constitutional power is questioned, we are willing to tolerate the free exercise of individual opinion upon that question among members of the democratic family, who are willing to rally under our standard and support the ticket nominated by the recent State Convention.

Resolved, That we cordially concur in and respond to the nomination made by the action of the Syracuse and Utica Convention, of Freeborn G. Jewett, for Judge of the Court of Appeals, of John A. Lott for Comptroller, of Henry S. Randall for Secretary of State, of Levi T. Chatfield for Attorney General, of Archibald Campbell for State Engineer, Frederick Follet for Canal Commissioner, Benjamin Welch, jr., for Treasurer, and Darius Clark for State Prison Inspector; and we recommend their hearty and united support at the polls, in the spirit and fidelity with which democrats have in time past been accustomed to support their candidates for public office.

Resolved, That we recommend to the democratic members of the next Legislature to call a convention for the purpose of consolidating the democratic party of this State, under a single organization.

Resolved, That the existing county committees be requested to unite in calling union conventions in each county, to be composed of an equal number from each section, to nominate county tickets, and perfect a single county organization.

Naval.

The United States sloop-of-war Falmouth, Commander, Thomas Petigrew, arrived, as announced in our paper of Saturday, at Saucelita, on the 13th inst. The Falmouth sailed from Boston in May last, and has touched, on her way to this station, at the following ports, viz: Rio de Janeiro, Valparaiso, Callao, Payta, Tumbez, and Guyaquil. At Payta, the Falmouth took on board, and conveyed to Guyaquil, Mr. Van Allen, our newly appointed Charge d'Affairs to the Republic of Ecuador, who was not permitted to land from the English mail steamer, in which he took passage from Panama, owing to the strictness with which their quarantine laws are enforced. For this and other reasons the Falmouth's visit to the ports of Peru and Ecuador was very opportune for the public interest. After landing the Charge, and a short delay at Guyaquil, she sailed, under instructions from the Hon. Secretary of the Navy, for Chatham Island, one of the Gallipagos group, to search for coal, which was said to exist there in large quantities. This, however, Commander Pettigrew satisfied himself did not exist, and he sailed, on the 10th of November, for this port, where he arrived as stated above, after a fine passage of thirty-three days. As soon as the Falmouth fills up with provisions, stores, &c., she will sail for Cape St. Lucas, Mazatlan, and other ports on the coast of Mexico and in the Gulf of California.

The following is a corrected list of her officers:

Commander, Thos. Petigrew; Lieutenants, John DeCamp, Geo. M. White, F. B. Renshaw; Acting Master, H S. Newcomb; Surgeon, David Harlan; Assis't Surgeon, F. M. Gunnell; Past Midshipmen, Wm. DeKoven, Wm. King Bridge, Peter Wager, Wm. Reily; Midshipmen, John N. Quackenbush, B. H. Tabb, Wm. McN. Armstrong, Edward T. Spedden; Capt's Clerk, C. J. Porcher; Boatswain, Charles Johnston; Gunner, August. F. Thompson; Carpenter, Lewis Holmes; Sail Maker, Lewis Rogers.

Passengers to join the Pacific Squadron:

Acting Master, Francis Gregory; Passed Midshipmen, John J. Hansen, Robert Selden; 1st Assis't Engineer, Nailor C. Davis; 2d Asst. do., Edward A. Whipple, Theodore Zeller; 3d Assist. do, John Carroll, John M. Maury, Thomas A. Stevens, Wm. A. K. Latimer.

Powder.—It is generally understood that there are considerable quantities of powder stored in the shops and warehouses of our city, in such a manner as greatly to increase the terrors of a fire among us, if such a disaster should occur. We trust that our City Government, which is now proceeding vigorously with the improvement of our streets, will give its attention to this matter also, and take, in season, such measures of precaution in relation to it, as may be necessary for the security of life and property. Should some suitable building be provided for the purpose, at some distance from the business part of the city—say on the summit of one of the hills which surround us—we cannot doubt that our citizens would glady avail themselves of the opportunity of removing the dangerous article from their premises, and depositing it more securely.

Almanacs for California.—We find upon our table, two Almanacs for the coming year, calculated for the meridian of San Francisco; the one of them having for its author Mr. Warren Mix, bears the imprint of the Alta California Press and is just issued. The other is made by Mr. George Beckwith, published at New Haven, Connecticut, and comes to us through Messrs. Campbell & Hoog's Newspaper Agency.

Mr. Beckwith salutes his patrons across the Continent as follows:

I take pleasure in greeting, through my humble publication, my fellow-citizens, as well as those who are to become such, in California. The time allotted me in which to make the almanac, was barely sufficient for the preparation of the calendar and almanac proper. But trusting that what there is will be acceptable, I hope to greet them in 1851, with a like annual, supplied with miscellany which will mark its paternity. I can only add my good wishes, and while I express the hope that you will fill your

hands with gold, you will permit me to caution you against allowing it to occupy your hearts.

TUNNEL THROUGH THE BLUE RIDGE.—From the Richmond Enquirer, we learn that the contract for this great work, (4260 feet in length,) was recently awarded, by the Board of Public Works, to Messrs. John Butter & Co., of the State of New York, they being the lowest bidders for the same. Those gentlemen, adds the Enquirer, produced the most ample testimonials of the energy, skill, faithfulness and punctuality with which they have executed other important tunnels in the United States.

CITY ITEMS.

REPORTED FOR THE PACIFIC NEWS, BY J. JUDSON AMES, ("BOSTON.")

THE SEVERE GALE—during Tuesday and Tuesday night—did considerable damage to the shipping in the harbor.

The British schooner Ospray, Captain Gregg, had her bulwarks stove, beside other damage, amounting in all to about $3000.

The Hawaiian schooner Sterling lost her main boom by the ship Agenoria drifting into her. The latter lost her cat heads, night heads and rail, by coming in contact with a Mexican vessel.

A French barque drifted into an American schooner, and, before they could be got clear, chafed the mainmast of the schooner half off, beside staving and ripping up her whole starboard quarter.

American ship James Munroe drifted into the Chilian ship Ville de Bordeaux, carrying away her jib and flying jib boom, and sprung her bowsprit and cutwater. The James Munroe lost her mizen top-gallant mast and yards.

The American brig Thomas H. Benton drifted on shore on Monday night, on the south east end of Indian Island, was dismasted, bilged and abandoned. She will be a total loss.

A 'bridge of SIZE' has been erected across Jackson street, where it crosses Kearny, which may favor pedestrians, but will prove, we think, something of an impediment to teams passing through the former street.

We heard a good story the other day, of a California judge and a Boston lawyer, which we think peculiarly characteristic of this country. The lawyer, it seems, entertained some doubts of the impartiality of the judge, in a decision where he was attorney for the plaintiff, and ventured to remark, 'Does your Honor profess to hold the scales of Justice *evenly ballanced?*' to which the judge quickly replied, 'No, how can that be when the *weight* of testimony *is all in one scale!*'

We perceive that the immense iron warehouse of Starkey, Janion & Co., at the foot of California street, has been rented by the Collector, and will hereafter be used as a United States Bonded Warehouse.

'IN FGR A DUCK.'—At an auction sale last week, in the second story of a building that projects some distance over the water, near the foot of California street, the weight of goods, and the large number of persons in the room, caused some of the timbers to crack a little, when a Dutchman, standing near an open window, not heeding the old injunction of 'look before you leap,' precipitated himself from the 'dizzy height' into the water! It is only necessary to add that, notwithstanding he went '*in for a duck,*' when we left he was '*floundering!*'

The barque Griffith sold at auction, on Tuesday, the 18th, for $8000 cash.

POLICE COURT—Judge TURK, presiding. *Monday, Dec.* 17.—Francis Murray was fined $25 for resisting officers. Ordered to give bonds in $1000 to keep the peace for six months, and particularly to be peaceable towards his wife. Not being able to get friends to vouch for his good behavior for so long a time, he was committed.

Tuesday, 18.—Faulkner Valleau was fined $15 for getting drunk and cutting up all sorts of pranks, which not being able to pay, he was sent to the Station House, and given till the 22d to raise the amount.

—— Schlessinger was fined $20 for a breach of the City Ordinance by firing a pistol. Not having that amount of the "tin" in his breeches pocket, he was sent to the Station House, but was subsequently discharged. The fine to officer Beck.

Wednesday, 19.—Thos. Green was arrested last night, and brought before his honor this morning, but no one being *green* enough to spend time in preferring charges against Tommy, he was suffered to go about his business.

Charles Smith was arrested on Friday night last, and taken to the Station House. While the officer was out of the room after wood, *Charles* Smith took the liberty of walking out also in search of his brother *John* Smith. Re-arrested yesterday and fined $20

THE WIFE OF A CALIFORNIAN.—Various circumstances peculiar to the California enterprise—the length and perils of the voyage, the multifarious character of the adventures, the anomalous condition of socity there, the uncertain prospect as to individual success at the mines—ranging from great and sudden wealth down to flat disappointment, the conflicting reports that are constantly arriving, render every arrival from that country one of intense interest to the personal friends of the advanturers. A young wife, whose husband sailed from here last February, has been anxiously looking for news of his arrival at San Francisco. Eight months had passed away, and she got no tidings of him, except that he wrote her in April from Rio Janeiro, having put in there for repairs. As she was at the railroad office, to see a friend off in the cars, yesterday, a news boy approached with a bundle of extras. Her eye, always on the look-out, caught the picture of the steamer which headed the paper, as proclaiming some foreign mail arrival. "What paper is that?" said she, with a mixture of surprise and earnestness. "It is the Empire City." was the reply. She snatched a paper from the boy, and begged him to show her, at once, the list of arrivals at San Francisco. She ran it half over, and throwing up her hands, exclaimed—"Here it is! Here it is! Bark ——, Capt. ——, August 21, 191 days from New York!" Her dear husband had reached his haven, or at least the vessel had, in which he sailed. A good providence had been over him—he had been carried safely through the storms of the Atlantic, the perils of the Cape, the worse than "law's delay" of the Pacific, and was in port! She fastened her eyes on that little item of commercial news, read and re-read it, wiped away the mists that gathered before her, and read it again and twenty times more, as if to assure herself that it was not an illusion. The heaving bosom, the face, glowing at one moment and pale at the next, the faltering voice, showed the intensity of her emotion, and the depth of a young wife's devotion. I took the paper from her hand, and folded it up for convenience, but she immediately unfolded it again, and placed her finger on the interesting item, as if there were danger of its escaping from her. Had that paper been filled with accounts of fresh revolutions in Europe, or of the discovery of a continent, it would have been nothing to her. I walked with her, rung the bell vigorously, as if there were haste and urgency to enter, and as I turned down the steps, I heard her in the hall shouting the news up the stairway to her mother in the parlor above.—Jour. of Com.

THE JEWS.—The Jews abstain from trading 66 days of the year, as follows, 52 Saturdays; 2 days, New Year; 4 days, Passover; 1 day, Black Fast; 2 days, Tabernacle. 1 day, White Fast.

INDIAN CORN IN ENGLAND.—The London Times gives a very flattering account of an experiment recently made in England on the practicabilily of advantageously cultivating maize in that land. It says:

"The appearance of the plant is peculiarly graceful—far more so, indeed, than that of any ordinary cornfield. The stems, which run up perfectly straight, are generally from four to five feet high, and are much thicker than the larger wheat straw. They throw out from the root upwards a succession of flag-like leaves, the stem terminating in a little tuft, from which spring the ears of corn, somewhat irregularly clustered; and, in this instance, apparently not heavily laden."

☞ Other crops than corn and cotton have suffered by the recent rains, as will appear from the following:

Where Persia's peach in beauty threw
Her snowy petals round,
And Erin's cosy murphies grew
All snugly under ground.

'Twas in a field whose every part
Was free from stone or weed,
This hand had planted just a quart
Of watermellon seed.

'Twas my delight at morn and night
To watch their young leaves rise—
They were as freshness to my heart,
As greenness to my eyes.

But oh! that mortal ever should
Find grief within his cup,
The rains descended, and the flood
Did wash my melons up.

In tears I stood, as statue still,
With sighs I could but say,
There's water here to turn a mill,
My melons, where are they?

SCHPLINTZ.

Men do anything and everything (but nothing) in San Francisco, for money. A late letter from there, says Alderman Picket is running a scow, Prof. Shepard is driving a team, and two young gentlemen of Yale, are wagoners.—N. Y. Express.

A wag, writing from this same country says, to such an extent is the veneration of the fair sex carried here, that I have seen a party of Oregonians stop and have a dance round an old cast-off bonnet.

A man died lately in N. York, of the cholera, who had entered the almshouse of that city when he was twenty-one years old, and had been in it forty-six years.

PUBLIC NOTICE.—Whereas, Henry Gunter and Samuel L. Burritt, of the town of san Francisco, to secure the payment of a certain promissory note, dated August 22, A. D. 1849, for Twelve Thousand Dollars ($12,000 00-100,) did make and execute unto Benjamin Davidson, of the same place, a certain *Indenture of Mortgage*, bearing even date with the said promissory note, upon certain property in said town of san Francisco, described as follows, to wit:

"All that certain lot, piece or parcel of land and premises, situated, lying and being in said city of san Francisco, bounded and described as follows: Fronting on Portsmouth square, lying on the south side of said square, or Clay street, thirty feet English measure. The first line commencing at a point on said Portsmouth square, or Clay street, 271 feet distant from the south-east corner of Dupont and Clay streets, running thence eastwardly on said Clay street, or Portsmouth square, 30 feet English measure; thence southwardly, 126 feet English measure; thence westwardly, 30 feet; and thence northwardly, 126 feet to the point of beginning on said Clay street, or Portsmouth square," together with all the buildings now standing thereon, being the same lot of ground on which the building called the "Ward House" has since the date of said mortgage, been built, and now stands.

And, whereas, there is contained in the said indenture of mortgage, a power to the mortgagee to sell the said mortgaged premises, in case the monies to sscure the payment of which the said mortgage was executed, be not paid on or before the first day of Decemrer, A. D. 1849. THE HEALTHIEST AND PLEASANTEST ROUTE TO NEW YORK—On the 24th December the fast sailing white oak built ship Clarissa Perkins, Captain Goodrich, will be dispatched to *Realego*, with passengers for New York, via. the Lakes of Nicaragua.

This route is 1000 miles nearer than by Panama, and, avoiding the tropics, passes through a perfectly healthy country, abounding in the finest fruits, oranges, pine apples, melons, plantains, bananas, etc., and provisions of every kind.

A ride of three days from Realego, thro' the fine cities of Leon and Granada, and along the picturesque shores of Lakes Leon, Maraya and Nicaragua, brings the passengers to the waters communicating with the Gulf of Mexico.

Passengers will be conducted across under the guidance of A. Y. Bequer, Esq., as interpreter and caterer, and Dr. Donaghe, of New Haven, as physician: these gentlemen having recently arrived from Nicaragua. Mules for travelling, and all needful accommodations, are prepared.

A clipper-brig will convey passengers from St. John's, on the Gulf of Mexico, to New York. The trip through is much safer, healthier, more pleasant and as quick as via. Panama. A liberal scale of provisioning is adopted by the proprietors of the line.

Passage through to New York (including travelling expenses and board in crossing), in the cabins, $275, and in the steerage, $220. George Gordon.

Passage may be secured by applying to Macondray & co.,

LOUNT & CO'S

Special Express to the United States and England.

LOTS FOR SALE *in the city of south San Francisco*, offering the greatest inducements to persons recently arrived, who are desirous of locating themselves with superior advantages. The city of south san Francisco is situated two miles south of the city of san Francisco, immediately on the bay, having every advantage for the shipping, and is supplied with wholesome water in great abundance. A stream of sufficient quantity to supply both cities and all the shipping that ever may lay in their harbors, forms the northern boundaries of this place—is quite accessible and is about being conducted into reservoirs for that purpose. The harbor is more securely protected from the winds than the harbor of san Francisco, and ships of the heaviest burthen may at all times of the tide lay within a boat's length of the land at many points, and quite close along the whole front of the city, affording the best facilities to discharge cargo. The soil is free of dust, and is of a rich clay nature. There are extensive stone quarries, and springs of pure running water are in many places. The surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay. The only good road from the city of san Francisco to the Pueblo of san Jose passes through south san Francisco, crossing the mouth of Mission creek and the mouth of the stream of fresh water already alluded to On this road you travel along a beautiful valley of firm grass land to the puertesuelo, a distance of less than two miles. Persons desirous of purchasing lots, which will wholly equal in value those of the City of San Francisco and provide for themselves residences on moderate and easy terms can do so by calling at the office of the undersigned in Clay st., where full particulars will be given them. HUNTER & BROTHER,

Agent for the Proprietors.

A good House with everything necessary for the accommodation of visitors is now established at south San Francisco.

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1843; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on W. H. Tiffany, at Boston, or on the undersigned, at his office, sacramento street, san Francisco. Hiram Grimes
